Innovation. Inclusion. Empowerment.

# Avaz users around the world

Back in 2009...

**AAC was a  
fairly new term  
in India**

Avaz = आवाज़ = Voice

*(In Hindi)*

# In the next 50 odd minutes, we will

1. Demo Avaz AAC
2. Demo Avaz FreeSpeech
3. Demo MDA Avaz Reader
4. Q&A

IT'S SHOW TIME!

# Avaz AAC

Scan or click on the QR code  
to download the app

## Key features:

- Visual reinforcement of words
- Share messages across different platforms
- Convert from high-tech vocab to low-tech
- Powerful personalisation
- Backup & restore across multiple devices
- Keyboard with powerful prediction
- Dashboard - helps practise and user analytics
- Avaz Live - teletherapy in the app
- Available in 14 languages

# Avaz FreeSpeech

Scan or click on the QR code  
to download the app

## Key features:

- Expanding: Prompting users with questions to expand their sentences;
- Scaffolding: Intelligently predicting words that they are likely to use;
- Contrasting: Visually modeling tense and sentence modifiers;
- Recasting: Automatically inserting prepositions and articles as needed; and
- Errorless modeling: Automatically predicting grammar, to assemble a map of pictures into a grammatically correct English sentence.

# MDA Avaz Reader

Scan or click on the QR code  
to download the app

## Key features:

- Take a picture or add a PDF
- Enables finger-reading
- Promotes distraction-free reading by highlighting the sentence being read
- Hints for each word teach you the syllables, rhyming words, and their pictorial representation
- Share a book created with other users
- Choose multiple voices
- Break sentences down for better comprehension
